

**Supplements, Content****E. Gekeler**

chap01a/b:	Chap. I
chap02a/b:	Chap. II
chap03a:	Chap. III, Linear Programming
chap03b:	Chap. III, Duality
chap03c :	Chap. III, Primal Method of Linear-Quadratic Programming
chap03d :	Chap. III, Global Lagrange Theory
chap03e :	Chap. III, Duality Theory
chap03f :	Chap. III, Local Lagrange Theory
chap03g :	Chap. III, Dual Method of Linear-Quadratic Programming
chap03h :	Chap. III, Linear Programming, Short Forms
chap04a :	Chap. IV, Variational Calculus
chap04b :	Chap. IV, Control Theory
chap04c :	Chap. IV, Gradient Method of Control Theory
chap04d :	Chap. IV, Extract from Hartl et al.
chap05a :	Chap. V, Section 1 and 2
chap05b :	Chap. V, Section 3
chap05c :	Chap. V, On the Newton Polygon
chap05d :	Chap. V, Section 4
chap05e :	Chap. V, Section 8, Continuation
chap05f :	Chap. V, Section 8, Step Length Control
chap08a :	Chap. VIII, Differential Form of Conservation Law of Angular Momentum
chap09a:	Chap. IX, Case Study, Taylor-Hood Element
chap09a:	Chap. IX, Case Study, Mini Element
chap09c:	Chap. IX, Case Study, Complete Cubic Approach
chap09d:	Chap. IX, Case Study, Rannacher-Turek Element
chap10:	Chap. X, On Christoffel Symbols
